~	Sertificate Export Wizard
	Welcome to the Certificate Export Wizard
	This wizard helps you copy certificates, certificate trust lists and certificate revocation lists from a certificate store to your disk.
	A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.
	To continue, click Next.
	Next Cancel
mar	k option ,, Yes, export the private key " and then Next
←	Eertificate Export Wizard
	Export Private Key You can choose to export the private key with the certificate.
	Private keys are password protected. If you want to export the private key with the certificate, you must type a password on a later page.
	Do you want to export the private key with the certificate?
	• Yes, export the private key
	\bigcirc No, do not export the private key

Next Cancel

leave the current PKCS #12 format setting

Evnort File Format	
Certificates can be exported in a variety of file forma	ats.
Select the format you want to use:	
O DER encoded binary X.509 (.CER)	
Base-64 encoded X.509 (.CER)
