

# How to successfully start using the ZealiD app?

---

With only Face or Touch ID, users can verify their identity online to issue a qualified certificate - the highest expression of regulated digital identity in the EU

# How it works

## 1. Get ready!

Select one of 24 languages, enable notifications

## 3. Liveness check

Prove your physical presence taking a video selfie

## 4. ID check

Capture your ID document

## 5. Manual vetting

Your registration will be manually checked by our team

## 6. confirmation of verification

Confirm the conditions of the online verification

# You will need

Download the ZealiD app from App store or Google play

Device which supports biometrics (Face or Touch ID)

Valid identity document: ID card or passport

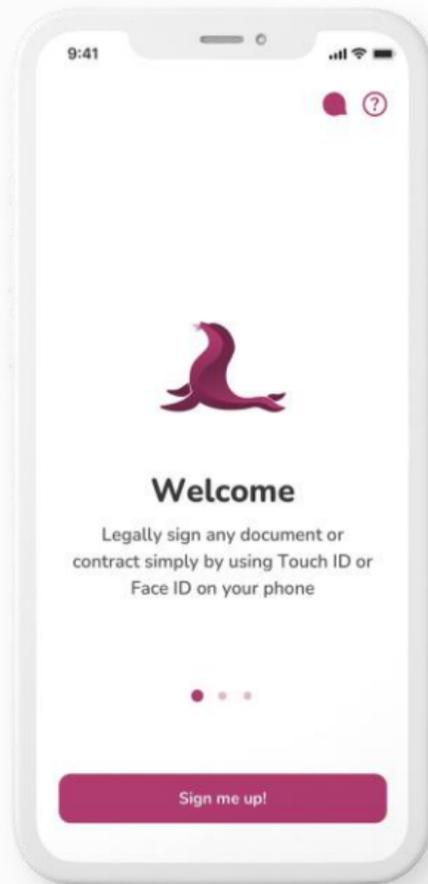

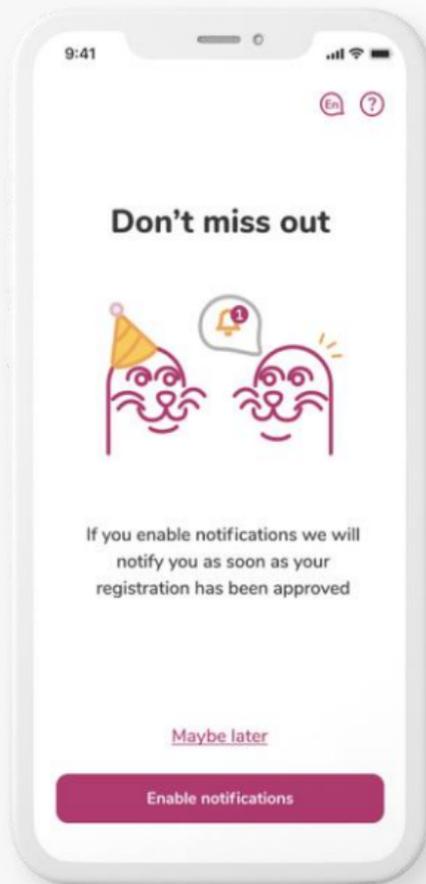

### 1. Get ready

2. Device registration
3. Liveness check
4. ID check
5. Manual vetting
6. Confirmation of verification

### Get ready

Enable push notifications to know when your application has been reviewed.

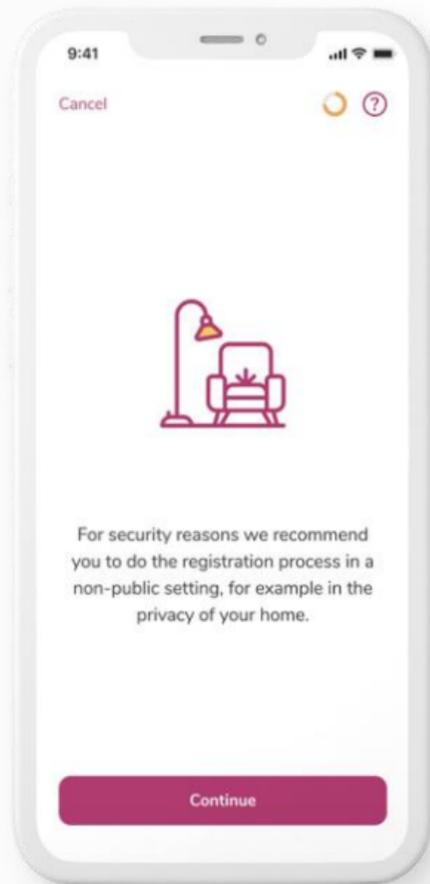

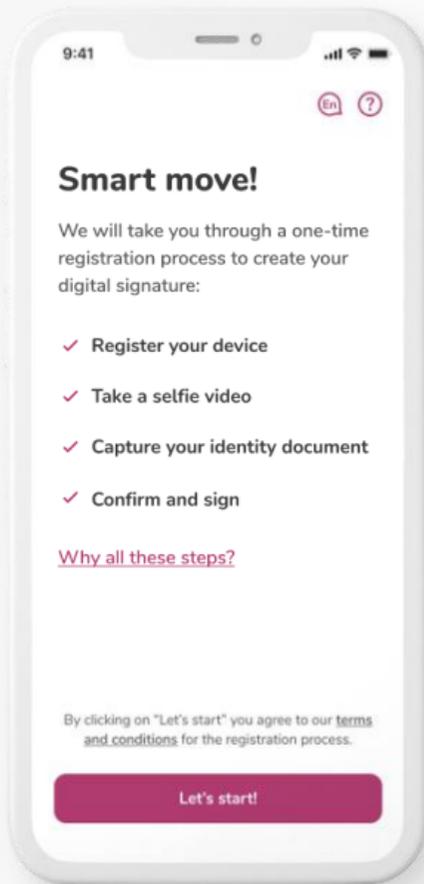

## 1. Get ready

2. Device registration
3. Liveness check
4. ID check
5. Manual vetting
6. Confirmation of verification

## Get ready

We recommend to register in a private and secure setting. Registration process includes filming your ID document. Therefore, it is important to keep your personal data safe and away from strangers in a public environment.

1. Get ready
- 2. Device registration**
3. Liveness check
4. ID check
5. Manual vetting
6. Confirmation of verification

E-mail

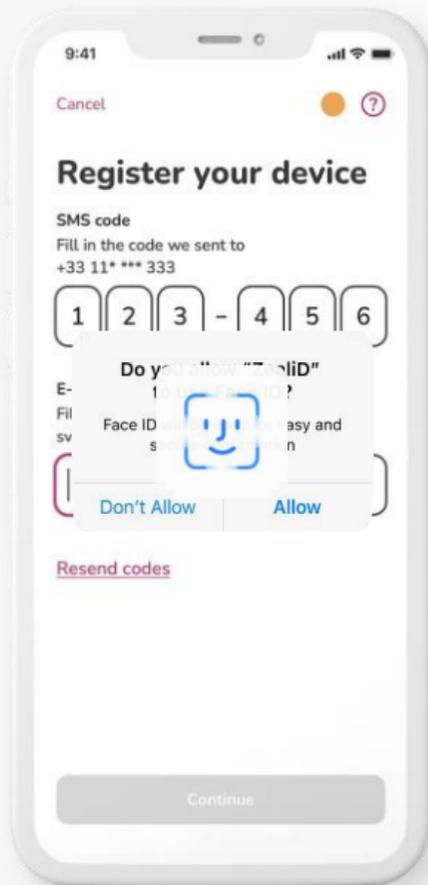

Continue

### Device registration

Enter your phone number and email address to receive one-time passwords (OTP). By entering the contact details you will receive OTP as an SMS and an email. You will register your device as a Trusted device for qualified signing later in the process. By using your biometrics FaceID/TouchID you'll make sure that you and only you will be able to sign documents using the ZealiD mobile app.

1. Get ready
- 2. Device registration**
3. Liveness check
4. ID check
5. Manual vetting
6. Confirmation of verification

### Device registration

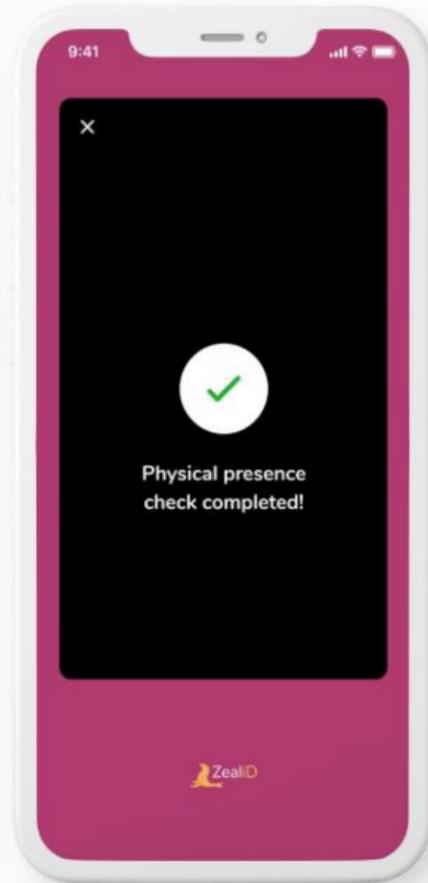

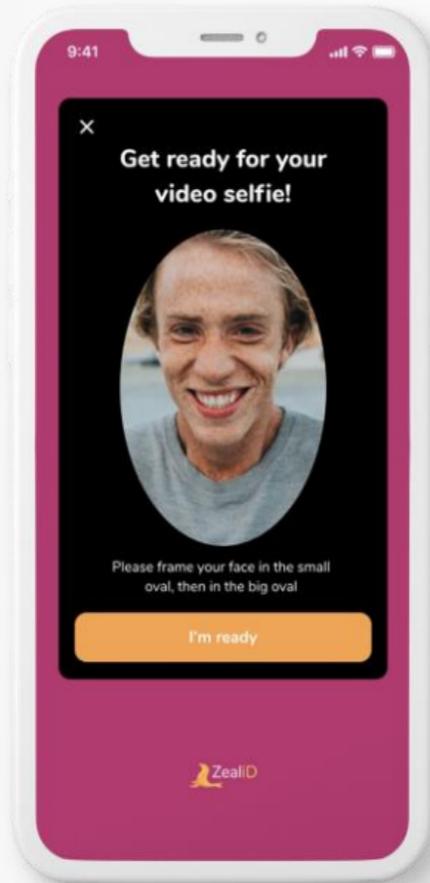

In this step, you will receive the OTP codes. By entering the codes and confirming it with FaceID/TouchID you will register your mobile device for qualified signing.

1. Get ready
2. Device registration
- 3. Liveness check**
4. ID check
5. Manual vetting
6. Confirmation of verification

### Liveness check

You will make a video selfie. Center your face in the oval frame and follow the instructions. A video selfie prevents impersonation and deepfake.

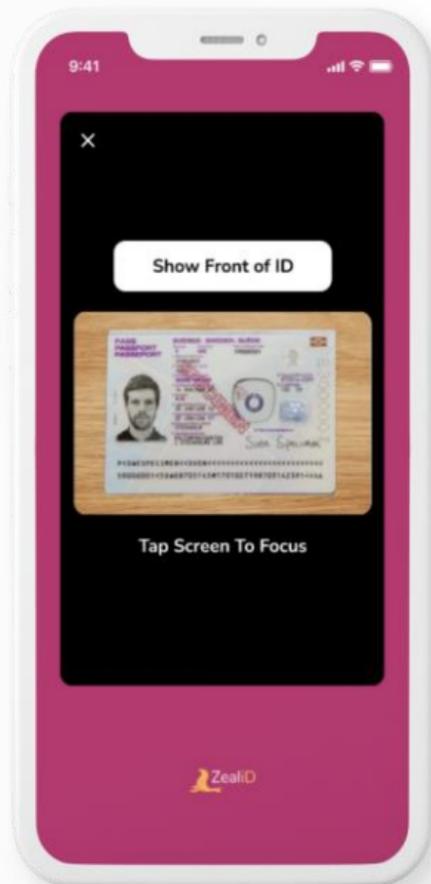

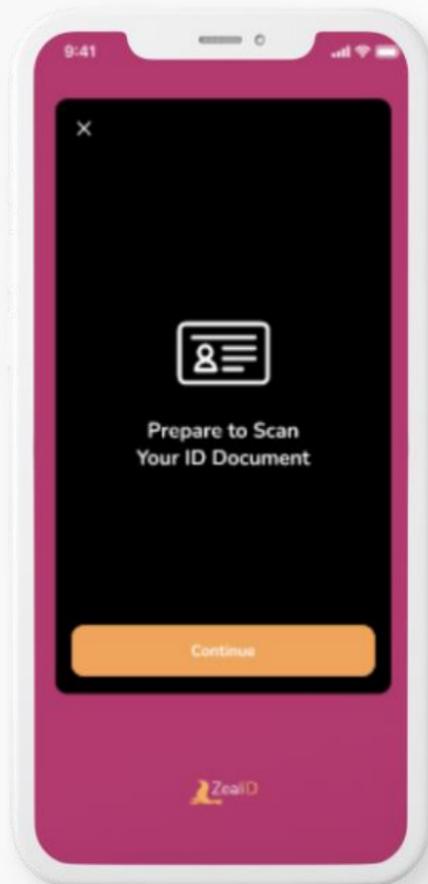

1. Get ready
2. Device registration
3. Liveness check
- 4. ID check**
5. Manual vetting
6. Confirmation of verification

#### ID check: photo

Put your ID document on a flat surface and fit it into a frame. Make sure the photo is in a good lighting and quality. The photo should be representative as it will be held for evidence purposes.

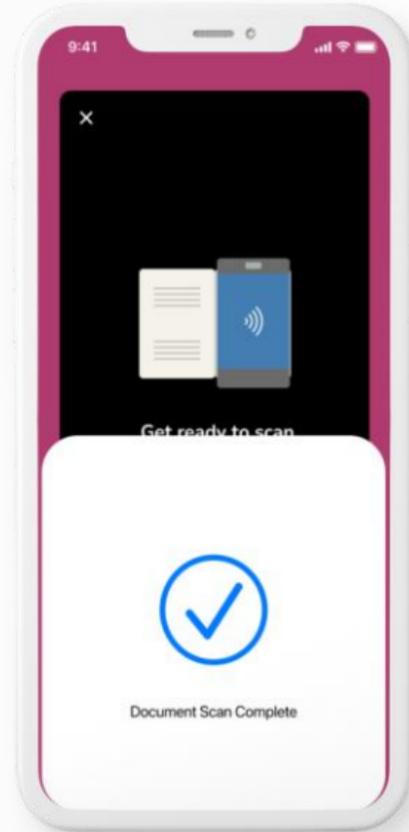

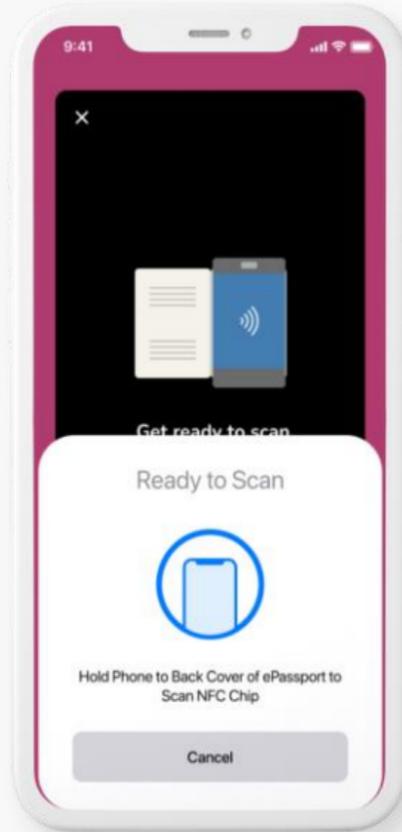

At this stage the app will recognise whether the document is NFC supported.

1. Get ready
2. Device registration
3. Liveness check
- 4. ID check**
5. Manual vetting
6. Confirmation of verification

#### NFC scan

Scan the identity document for NFC certificate validation and information about the document holder transfer.

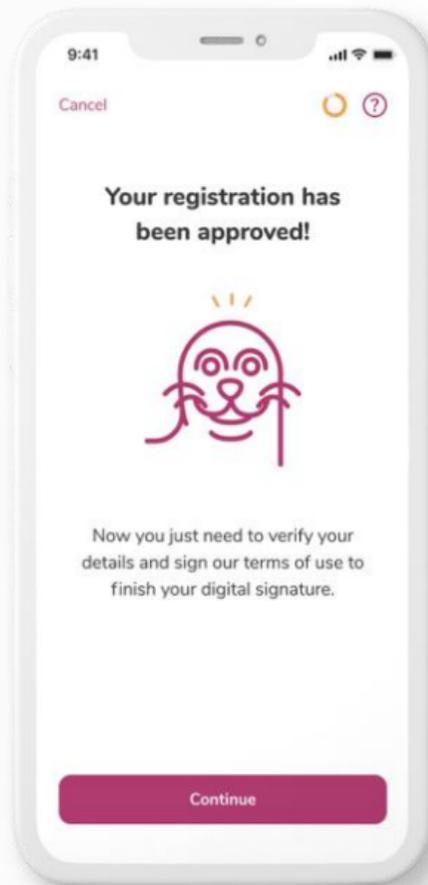

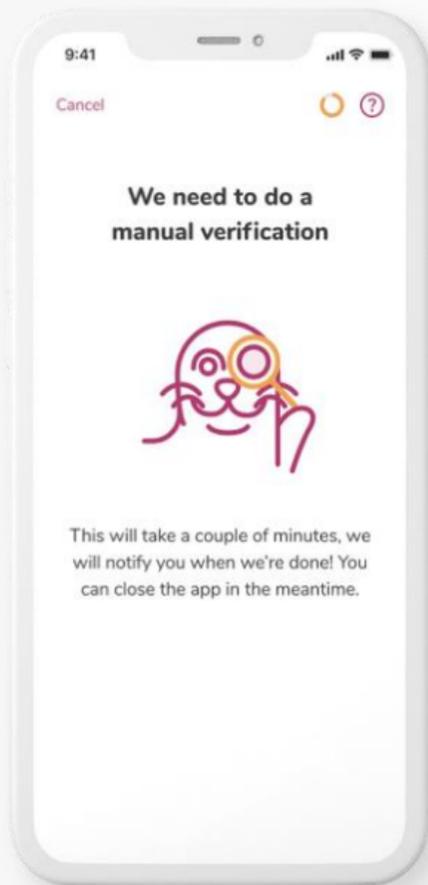

1. Get ready
2. Device registration
3. Liveness check
4. ID check
- 5. Manual vetting**
6. Confirmation of verification

### Manual Vetting

Every application is reviewed by the Manual Vetting Team. During manual check, a highly trained Specialist will check data received, inspect document validity and authenticity to prevent fraud.

1. Get ready
2. Device registration
3. Liveness check
4. ID check
5. Manual vetting
6. **Confirmation of verification**

### Confirmation of verification

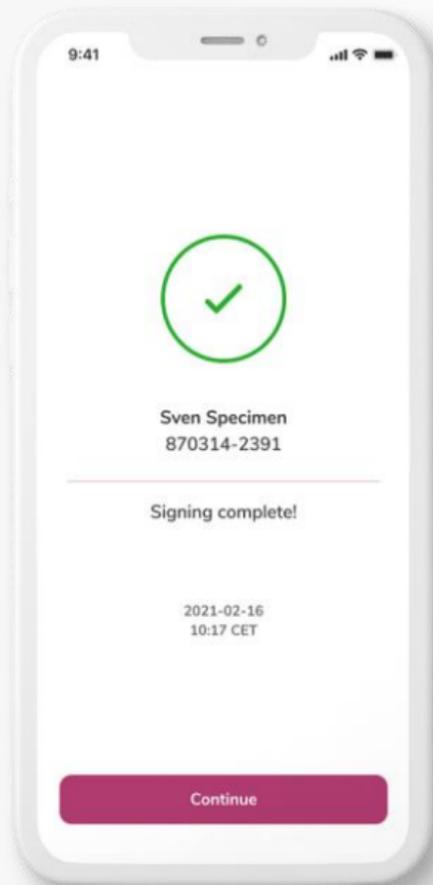

Your full name and serial number will be provided on the screen. Check and confirm that the details are correct, agree to the terms and conditions of signature usage.

1. Get ready
2. Device registration
3. Liveness check
4. ID check
5. Manual vetting
- 6. Sign agreement**

### Congratulations!

You can now continue the process of issuing your certificate by scanning the QR code that is displayed on your PC.
